

# Christian Endeavor Resource Sheet

## Statement of Commitment

**Youth workers need to be committed to working with students. It is important that they are willing to sign a Statement of Commitment.**

***After observing the ministry, praying about my involvement and discussing my new ministry with my family, I choose to commit to the following:***

I acknowledge Jesus Christ as my personal Savior and leader of my life.

I commit to growing and maturing in my relationship with God by spending time with Him individually and through church ministries.

I understand that being a member of the student ministry staff will make me a role model for the students involved in the ministry and in the community.

I will strive to live a godly lifestyle in order to follow God faithfully and to be a positive example for the students. There are currently no practices in my life of any addictive nature that could hinder my relationship with God or my ministry with students.

I commit to the student ministry for at least one year.

I understand and accept the mission, vision, values and action plan of this ministry.

I understand my presence is important, so I will be present and on time to all programs to which I make commitments including staff trainings. I will inform the person in charge of this ministry if I will be absent.

If and when I decide to move on from this ministry I will help find and equip replacements for the areas in which I am ministering. I will be willing to work with the student pastor and staff at explaining my departure to the students.

I personally will minister in the following areas during this ministry year:

1.

2.

3.

Signature: \_\_\_\_\_ Date: \_\_\_\_\_

**Special points of interest:**

**Your staff has gifts and talents that fit well into your ministry ... how will you use them?**
